

ENTERPRISE CERTIFICATION LICENSING INSPECTION AND PERMITTING SYSTEM (ECLIPS)

Ashley Rodgers, PE
State Sedimentation Specialist
Ashley.Rodgers@ncdenr.gov

Fall 2014

What is ECLIPS?

- Pilot Project for NC
 - DENR LQS Sediment Program
 - NCDA&CS Program
- Web-based
- Designed to automate the application, review, approval, and issuance of permits
- Manages inspections

Phased Implementation

1

• Back Office

2

• AMANDA Mobile

3

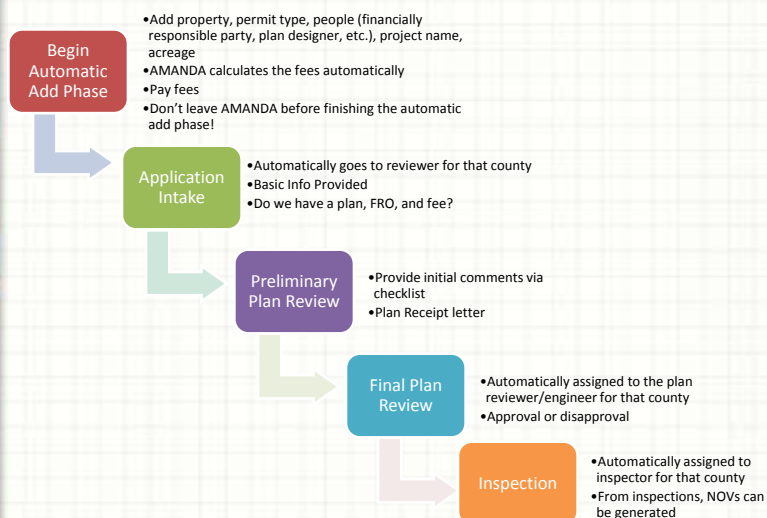

• Public Portal

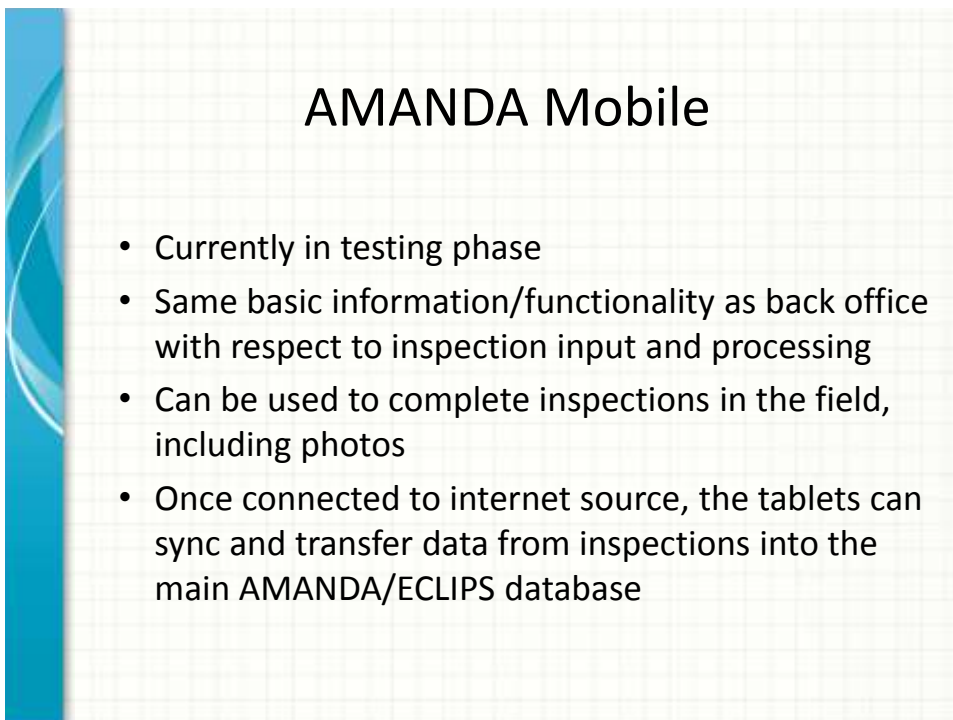

Back Office

Back Office

- Online June 23, 2014
- Staff input of plans
- Preliminary and Final Reviews
- Permit issuance
- Inspections

The Process...

Public Portal

What We Anticipate.....

Users for the Public Portal

- Two Types of Users
 - Public User
 - Anyone
 - Will be able to see basic project info and recent activities
 - Registered User
 - Actively involved in the permitting process (ex: plan designers)
 - Will be able to see more information, submit applications, pay fees, etc.

Users for the Public Portal

- Public User
 - Will be able to search E&SC plans by a person's name, permit type, issue date, or address
 - Once the search is successful, the public user will be able to see Folder information, address, status, and current process status

Division of Energy, Mineral and Land Resources

Remember – as a registered user, you can check the status of your application and track it through the process!

The screenshot shows a web application interface with a header, navigation menu, and a main content area displaying process details. The interface includes a search bar, a list of processes, and a sidebar with navigation options.

AMANDA/ECLIPS Pilot Project

- New web-based process for application submittal and tracking
 - Saves printing and postage costs
 - Allows you to confirm receipt and follow the application through the process
- Electronic payment of fees
- Reduction in turnaround time
 - Responses to preliminary review comments, etc.
